### Stop in for a service and receive a complimentary honey bee wildflower mix!

This Earth Day, we are going to plant for pollinators! Our fairies would think you were just the bee's knees if you would step into Eau Spa and pick up a complimentary packet of pretty posies. Our Wildflower Mix is perfect for green thumbs and dirtaphobes alike, as you may carefully sow them into your colorful garden or simply toss the seeds out your car window on a rainy day to bee-u-tify an empty lot. You will propagate pretty plants for the Palm Beach bees to snack on either way! If you love our Eau Spa Honey, then this is your chance to tip your worker bees and make the world a better place for our winged friends to buzz about in!
